Online Safety Day

AIM: Teach children to be safe, responsible and respectful on the Internet and empower the wider community to implement in the children's online lives.

Dear Parents/Carers,

On Tuesday 24th March, Childnet will be visiting our school to raise the profile of online safety. All of the children will spend the day learning about the digital world we live in and how to stay safe. The children will learn about the positives of the Internet and look at the most popular sites and services being used by children today. Children from Years 2 to 4 will be taking part in sessions led by Childnet through storytelling, discussion and scenarios. In the classroom, they will also learn about how to be responsible and respectful digital citizens.

We would like to invite you to attend our parent and carers session after school entitled 'supporting young people online'. It will run from 5:15pm to 6:15pm. The Childnet team aim to equip parents and carers with the knowledge on how to protect their children online and encourage young people's positive internet use out of school. They will offer practical tips and useful tools to use at home. Let's continue to work together for a better Internet.

If you are interested in attending our evening session, please fill in the form below. Please note this session is for adults only.

Thank you for your continued support,

Mrs Cartwright
